

PUBLIC NOTICE
MEDINA COUNTY HIGHWAY ENGINEER
FRIENDSVILLE ROAD BRIDGE #8 REPLACEMENT
ODOT PID # 111873

The Medina County Highway Engineer will be replacing Friendsville Road (CH 35) Bridge Bridge No. 8, ODOT PID # 111873. This project will be administered by the County as an ODOT local-let project using CEAO (County Engineer's Association of Ohio) funding.

The proposed structure will be 28 feet wide, with two 10 foot lanes and a 4 foot guardrail offset. The existing abutments and piers will be rehabilitated and reused. The structure will be a 152 foot long, three span box beam bridge and span an existing CSX Railway. The bridge will be on a tangent alignment at the existing location, and the vertical alignment will be the same as the existing structure.

The proposed construction is expected to begin in May of 2022 and take approximately 120 days to complete. Traffic will be detoured on local roads, using White Road when approaching from the south and Seville Road when approaching from the North.

For questions or comments on the project, please contact Andrew J Conrad, P.E., P.S., County Engineer at 330-723-9559 or email at aconrad@medinaco.org.
