In the Summer of 1998, the office of the Medina County Sanitary Engineer began the process of "GPS Monumentation." The purpose of "GPS Monumentation" is to establish a countywide coordinate system that would enable the Sanitary Engineers' to geographically locate its water and sanitary utilities for mapping purposes. "GPS Monumentation" was the first step in the process of transferring all of the Sanitary Engineer's utilities to a G.I.S. (Geographic Information System) application to benefit the entire county. In the Spring of 2008 the Medina County Highway Engineer's office joined the Sanitary Engineers office in expanding the County GPS Network to better serve all county utilities and infrastructure.

As of January 2009, there are 49 monuments in which Medina County has set and are part of the GPS Network. Twenty-seven of these monuments are "Blue-booked" by N.G.S. (National Geodetic Survey). The "Blue-booking" process publishes monuments in to a national database maintained by N.G.S. These 27 monuments were part of the initial Medina County GPS Network. The "Blue-booked" monuments are "First Order Horizontal" and "Fourth (ClassII) Order Vertical" according to N.G.S. classifications. In addition, 5 new monuments were added in the Fall of 2002, but were not "Blue-booked." These monuments are- SH28, WE29, CH30, HO31, SP32. In the Spring of 2008 Medina County added 17 new monuments to the GPS Network which also were not "Blue-booked." These monuments are- LV303, BR38, HI350, GRPK, GR61, GR03, SH75, GU16, MO856, WE46, HA34, HO36, SP87, LT64, LT05, YO70, LF290.

Datasheets are available for all of the 49 Medina County G.P.S. Control monuments. Explanation of the datasheets is as follows:

- 1.The horizontal data was obtained from N.G.S. ("Blue-booked" monuments only.) These monuments include- MC01, YO02, LT03, LT04, LT05, LV06, LV07, YO08, YO09, LV10, BR11, GR12, HI13, HI14, ME15, LT16, CH17, CH18, LF19, GU20, SH21, SH22, MO23, MC24, HI25, WE26, BH27.
- 2.The remaining data was calculated by Geodetic Consulting Services (Kirby Zellers) of Columbiana, Ohio.
3. For a further explanation of any of the data, please contact the Medina County Sanitary Engineer or Medina County Highway Engineer.
